

Key Information Document

IMPORTANT NOTICE: DP Aircraft I Limited has followed the methodology prescribed by the Regulation (EU) 1286/2014 of the European Parliament and of the Council ('the Regulation') for the preparation of this document. The requirements of, and methodologies prescribed by, the Regulation are not specifically tailored to companies with publicly traded securities such as DP Aircraft I Limited. In particular, the Regulation requires that the potential future returns shown by the Performance Scenarios must be calculated using share price returns over the past five years which may prove to be too optimistic and not necessarily indicative of future performance. Accordingly, investors are cautioned against relying on the Key Information Document to estimate future returns for DP Aircraft I Limited or as a useful comparison against other investment products

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product: **DP AIRCRAFT I LIMITED (PRIIP)**

ISIN: **GG00BBP6HP33**

PRIIP Manufacturer: **DP Aircraft I Limited**

Website: www.dpaircraft.com Call: **+44 (0) 1481 749700** for more information.

This document was produced: **20/06/2022**

What is this product?

Type: The PRIIP is a non-cellular company limited by shares with an unlimited life, incorporated under the Companies (Guernsey) Law, 2008, as amended (the "**Guernsey Companies Law**") on 5 July 2013 and listed on the Specialist Fund Market of the London Stock Exchange. As such, there is no fixed maturity date.

Shares of the PRIIP are bought and sold via markets and investors should expect that the primary means of disposing of shares will be by sales on the secondary market. Typically, at any given time on any given day, the price you pay for a share will be higher than the price at which you could sell it. The product has borrowed to purchase assets. This will magnify any gains or losses of the PRIIP.

Objectives: The PRIIP's investment objective is to obtain income returns and a capital return for its Shareholders by acquiring, leasing and then, when considered it is appropriate, selling aircraft. The PRIIP's target quarterly dividend is currently suspended.

Intended retail investor: The PRIIP is not specifically intended for retail investors. Typical investors in the product are expected to be institutional and sophisticated investors, investment professionals, high net worth bodies corporate, unincorporated associations, partnerships and high value trusts and private clients (all of whom will invest through brokers).

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you hold this product for 5 years.

There is no committed liquidity offered by market makers or the PRIIP so liquidity depends only on the availability of buyers and sellers on the secondary market. You may not be able to sell your shares easily or you may have to sell at a price below the price that you paid or below the prevailing net asset value per share. Be aware of currency risk. The amount that the shares are worth in Sterling will depend on the exchange rate between US Dollars and Sterling. This risk is not considered in the indicator shown above.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 6 out of 7, which is the second-highest risk class.

This rates the potential losses from future performance at a high level, and poor market conditions are very likely to impact the value of the shares.

Other risks materially relevant to the product that are not included in the summary risk indicator include:

- The product is exposed to counterparty credit risk and default risk, in particular the lessees of its aircraft.
- The product is exposed to the risks associated with borrowing to finance the purchase of its aircraft.
- There is no certainty regarding the lifespan of the product's aircraft, the ability to re-lease the aircraft or the resale value of the aircraft.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Covid-19: From mid-March 2020 the airline industry has needed to respond to widespread grounding of their aircraft and hence to revenues that they receive. This impacted both NAS and Thai with both airlines engaged in corporate restructuring. Subsequently NAS returned the two Company aircraft and the NAS Lenders appointed receivers over these and related NAS assets of the Company. These assets have now been sold with no recovery for the Company. The Thai aircraft are now both operational under new lease agreements. There is nevertheless an ongoing risk for the airline industry and Thai. DPA has suspended dividends until further notice and will undergo an equity raise. Until such time as it becomes clearer how passenger numbers and Thai recover this investment should be seen as considerably riskier than it was rated in a pre-Covid environment.

Performance Scenarios				
Investment \$10,000		1 year	3 years	5 years (Recommended holding period)
Stress scenario	What you might get back after costs	\$1	\$131	\$21
	Average return each year	-99.99%	-76.44%	-70.76%
Unfavourable scenario	What you might get back after costs	\$1,871	\$172	\$19
	Average return each year	-81.29%	-74.20%	-71.49%
Moderate scenario	What you might get back after costs	\$4,074	\$661	\$107
	Average return each year	-59.26%	-59.57%	-59.64%
Favourable scenario	What you might get back after costs	\$8,541	\$2,449	\$587
	Average return each year	-14.59%	-37.43%	-43.28%

The table shows the money you could get back over the next 5 years under different scenarios, assuming that you invest \$10,000.

The scenarios shown illustrate how your investment could perform. You can compare them with scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past, and are not an exact indicator. What you may get will vary depending on how the market performs and how long you keep the investment. Furthermore, this information is compiled according to prescribed formulae which take into account, amongst other things, past performance. In the opinion of the product manufacturer, and based on the current portfolio construction, the product is unlikely and not designed to achieve consistent performance in line with the favourable scenario presented. This product cannot be cashed in. The figures shown include all the costs of the product itself but do not include any costs that you may pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect the amount you get back.

What happens if DP Aircraft I Limited is unable to pay out?

The PRIIP is not required to make any payment to you in respect of your investment. If the PRIIP were to be liquidated, you would be entitled to receive a distribution equal to your share of the PRIIP's assets, after payment of all of its creditors. The value of the shares in the PRIIP is directly impacted by the solvency status of DP Aircraft I Limited. There are no investor compensation or guarantee schemes available to investors, should DP Aircraft I Limited be unable to pay out. If you invest in this product, you should be prepared to assume the risk that you could lose all of your investment.

What are the costs?

The Reduction in Yield (RIY) shows what impact the PRIIP's total costs will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs (where applicable).

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. The figures assume that you invest \$10,000. The figures are estimates and may change in the future. You should note that these costs are paid by the PRIIP whereas the return that you may receive will depend on the PRIIP's share price performance. There is no direct link between the PRIIP's share price performance and the costs that it pays.

Costs over time	The person selling to you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time.			
	Investment \$10,000	If you cash in after 1 year	If you cash in after 3 years	If you cash in at the end of the recommended holding period of 5 years
	Total Costs	\$572	\$676	\$666
	Impact on return (RIY) per year	5.72%	5.72%	5.72%
Composition of Costs	<p>The table below shows:</p> <ul style="list-style-type: none"> The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period. What the different cost categories mean. 			

	One Off Costs	Entry costs	N/A	As a closed ended collective investment scheme, no entry charges apply.
		Exit costs	N/A	As a closed ended collective investment scheme, no exit charges apply.
	Ongoing Costs	Portfolio transaction costs	0.00%	Costs pertaining to the buying and selling of the products underlying investments. Note: this is disclosed as nil as amounts were written back during the period resulting in a negative cost.
		Other ongoing costs	5.72%	All charges applicable to the product, including management fees of the aircraft holding companies. Note: these exclude one-off accounting adjustments made during the period for write-offs and further info is available in the interim accounts.
	Incidental Costs	Performance fees	N/A	No performance fees apply.
		Carried Interests	N/A	No carried interests apply to the PRIIP

How long should I hold it and can I take money out early?

The minimum recommended holding period for the product is 5 years, however, the shares of the PRIIP trade continuously on the London Stock Exchange and is not bound by any prescribed redemption or sale restrictions.

How can I complain?

As a shareholder of DP Aircraft I Limited you do not have the right to complain to the UK Financial Ombudsman Service (FOS) about the management of DP Aircraft I Limited. Any complaints concerning this fund or the key information document should be sent to: sarah.felmingham@aztecgroupp.co.uk or chris.copperwaite@aztecgroupp.co.uk

Other relevant information

The prospectus and any other information can be obtained from the following websites.

www.dpaircraft.com

www.londonstockexchange.com

Information on the gearing and borrowing limit can be found on page 8 of the prospectus.

The costs, performance and risk calculations included in this KID follow the methodology prescribed by EU Rules. You should note that the costs information in this document does not include the costs of borrowing incurred by the PRIIP or the aircraft holding companies. "Portfolio Transaction Costs", whilst being quoted above, are not definitively known and as such, have been estimated based upon the provisions detailed in the latest Financial Statements of the PRIIP.

Depending on how you buy these shares you may incur other costs, including broker commission, platform fees and Stamp Duty. The distributor will provide you with additional documents where necessary.

The performance scenarios presented are an estimate of future performance based on evidence from the past. The performance scenarios contained herein take into account the movements in the Company's share price in March 2020, which is generally reflective of volatility in financial markets during the same period.
